To whom it may concern

The Grafton Netball Courts, located at Westward Park Grafton have recently been redeveloped by Sport Build Pty Ltd following a competitive procurement process. Sports Build have a reputation for delivering a quality product which is fit for purpose and in line with design plans and community expectations.

The project included the demolition of seven outdoor courts and the construction of eight outdoor netball courts. The new courts are concrete construction and also include court lighting, shade structures and aluminium grandstands to regional level standard.

Sports Build constructed the netball courts in a few short months, over the Christmas period and early into the New Year and had them constructed and ready for the 2023 season.

The netball courts are a tremendous asset to the community, providing a safe, inclusive space for all members of the community. The new asset has attracted additional membership to the netball, contributing to the health and wellbeing of our community. The additional courts has allowed for the growth of the sport and the lights on all courts has provided an opportunity for training in the evening.

The new courts are accessible, increasing the capacity for disability inclusion.

Sports Build were responsive to the project requirements and have provided a good service throughout the delivery. The netball courts are a vast improvement on our former courts, which were dilapidated beyond repair.

Thank you to Sports Build for their commitment to the project and for their innovation to provide the best solution for the delivery of netball courts within our allocation budget.

Yours Sincerely

Brooke Burton
